 1. You want to add cash cases done in your office at the time of your choosing
 2. Problem: You don't know how to do labiaplasty and how to stay out of trouble. You want to keep those patients. You don't know how to start this cash practice.
 3. I will be your guide. I developed the techniques and taught the teachers.
 4. I have a plan. Step-by-step plan proven over 20 years. From videos, to live training, to webinars with me and your peers, newsletters, to personal access to me and my team.
 5. Subscribe and learn from me and your peers who have gone through the same growing pains. Benefit from our experience and follow the right path.
 6. Don't get left behind. Avoid the mistakes. Your gyn next door is eyeing this field. You train with me and you will be light years ahead.

7. You will add enormous financial value to your practice and your family's bottom line. You don't have to see 30-40 patients a day, you can stay in your office, and double to triple the financial value to get from each patient. You don't have to rely on insurance anymore.
